

URBAN MYTHS AND LEGENDS

Was it all misunderstandings, did they fake the lunar landings?

Was LBJ to blame for JFK?

Hitler's drug addiction was it fact or was it fiction?

Was Elvis dead or spirited away?

Is there a god? Is there a heaven? Lucky 3 or is it 7?

Was barefoot Paul alive in '69?

Was English Rose a victim of some Royal Family hitman?

Why does Armageddon's date change ev'ry time?

Urban myths and legends can be cured without exemptions

Using Dr Nostradamus' Pink Pill

Knight Templars' secret wisdom, Da Vinci's hidden system

Freemason's get to circumvent the laws

Hidden charges in the Towers, there were never Auschwitz showers

The earth is flat cos NASA's data's flawed

They've got a cure for cancer but when questioned they won't answer

Howard Carter found a curse in King Tut's tomb

Bermuda Triangle, the Rapture promise dangled

Ouji-boards and tarot, Vampire moon

Urban myths....

Cross your fingers, count to ten, click your heels, touch wood and then there's

Cracking mirrors, dodging ladders, tempting fate

Spilled salt, indoor umbrella, name in vain, cows lie together

Broken web, Stonehenge, Pearly Gates

Numbers and alignments, trusted leak, covert assignments

Add rumour and conjecture to the mix

Flashing lights, cosmic forces, instillations, secret sources

All governments are up to dirty tricks

Roswell 47, crop circles down in Devon,

Shangri-La, Atlantis, UFO

Mary Magdalene, Rasputin, Anastasia, Lord Lucan

Easter Island heads and the sum of all we know

Urban myths....

DREAMING STILL

Warm glowing, Breeze blowing

We're growing, Spellbound

Not there, We don't care

We're somewhere we can't be found

Freewheeling, Deep feeling

We're dealing aces

High-flying, Low lying

Our hiding places

One step

Ahead

Day after day

Due date

Too late

We've melted away

Instrumental

Stay lost 'n' Storm-tossed 'n'

Fingers crossed invisible

Forever, Together

Whatever, Dreaming still

One step....

Warm glowing, Breeze blowing

We're going until

Forever, Together

Whatever, Dreaming still

Dreaming still.....

Not there.....

EVERYDAY DREAMS

If everyday dreams came true we'd weekend in Malibu

A quiet retreat near Billionaire Beach

Be spoiled for choice what to do

If everyday dreams could fly we'd go spiralling up to the sky

Fooling around, never come down

Watching the world going by

And if one day our ship arrived

Would it matter at all in your eyes

Would you love me more, cos I'm sure that

I couldn't if I tried

If everyday dreams were real

there'd be Moet with every meal

Centurion card, working it hard,

With its limitless spend appeal

And if one day...

Instrumental

If everyday dreams came true I'd be sitting there next to you

Re-living your day hearing you say

There's nothing that you'd rather do

If everyday dreams came true
